## Co-Lo Server Order Form

### Name and full postal address:

Name		
Address		
Post Code	Telephone	Mobile Telephone (Evening contact number)

### Select your Co-Lo Server Package:

Size	Monthly Traffic(Gb)	Daily Backup	Log Analysis	Setup Fee	Monthly cost
<input type="checkbox"/> Bronze	5	100Mb	1 domain	£250.00	<b>£149.00</b>
<input type="checkbox"/> Silver	10	250Mb	1 domain	£250.00	<b>£199.00</b>
<input type="checkbox"/> Gold	25	500Mb	5 domains	£250.00	<b>£249.00</b>
<input type="checkbox"/> Platinum	50	500Mb	5 domains	£250.00	<b>£299.00</b>

Additional Traffic levied at £5.00 per Gb/month (ex. VAT) Minimum contract term - 12 months

### What's Included

#### Daily Backup

As a non-cost option we will undertake daily backup of your primary site folders (up to 500Mb) to tape. Alternatively we will manage your own backup solution on site if required.

#### Site Statistics

Every visitor to your site will be logged in the access log for your site. Co-Lo server logs can be collected by FTP (requires an account on your server for connection) and interpreted by our web based statistics server to provide a wealth of information to assist you in understanding the browsing habits of your visitors.

#### Remote Administration

Gain administration access to your server via Secure Terminal (SSH) and VNC. These ports will be opened from known sources only to ensure security is kept as tight as possible.

#### Firewall Protection

All Co-Lo Servers are protected by our enterprise class firewalls. We also perform scheduled security checks and alert you to known issues as we find them.

#### 100Mbit VLAN Network

All network connections are VLAN tagged to ensure server independency within our facility. Your server will have a minimum of one permanent public IP address with additional IP's available on request.

#### Dedicated Bandwidth

Quality of Service (QoS) policies are employed for all Co-Lo servers to ensure they get the bandwidth they require. We will also provide a burst-able limit should your server require more. Tailored rules are used so that mission critical applications like SAP or SQL get priority over bulk services like e-mail.

In addition, total traffic utilization is logged generating accurate reports of your bandwidth use on a monthly basis.

#### DNS Management

The 'dark art' of DNS is often a practice best left to the service provider, especially if they are authoritative (SOA) for your domains. Freedom255 will happily provide both primary DNS zone management or secondary zone backup for your domains as required.

WHEN COMPLETE PLEASE SIGN AND RETURN ORIGINAL DOCUMENTS TO FREEDOM255, 255 OLD SHOREHAM ROAD, BRIGHTON & HOVE, EAST SUSSEX. BN3 7ED
